## Baffle Filters

### USAGE :

- ⊙ Baffle Filters for Kitchen Exhaust Systems are designed to give safe, dependable and positive flame barrier protection.
- ⊙ Efficient grease removal with the smooth vertical surface of the baffles ensures the grease runs down the hood collection troughs.
- ⊙ Resistance is 150 Pascal's for the air capacities of the standard size filters as listed below.
- ⊙ The Baffle Filters are made from Aluminium or Stainless Steel.
- ⊙ NON STANDARD sizes are available.

CODE	HEIGHT	WIDTH	DEPTH	CAPACITY
JB01	395	495	50	300 l/s
